## They show us the way

Of all the many parts of Tolt, the faculty holds the leading role. These teachers stand by our side in extending our learning and maturity. With determination they observe our struggling climb for success. Without these leaders we have no conception of the realm of knowledge of our country's

education. We are impressed with the importance of history, the need for vocational training, the need for communication and the many ways of communication, the personal expression of art, and the undiscovered wonders of the world which leads us into the future.

## Behind the scenes

The secretaries not only take care of school and district business but, help students in any way possible. We ride to school on the buses maintained by our mechanic, Mr. Maneval. Through his able work our equipment operates.

Students take pride in a well kept school but they often forget the importance of the men who perform this task. The custodians keep the halls and the rooms clean and in order. They see that the grounds are kept neat.

## The Student Council leads us

Student Council is the only part of Tolt which is truly of the students, and for the students. Each student organization is given equal representation in the student council. These representatives govern the students and as students themselves work in the best interests of their school. Through the work of our student council we paid off a debt \$3,500 over a period of three years. The student council faced many problems, yet with hours of work surmounted them and proved their leadership.

## The Tolt Hi-Life informs us

The Tolt Hi-Life, voice of the school, strives to communicate with the students, articles of interest. Past, present, and future events of the school are brought to focus in the paper.

Sports, which is the most important event to many of the students, is another way it informs us of the different players who had a big part in winning the games. The editorial lets the students voice their opinions and ask questions about their school. In doing this the paper develops a better communication between the students of Tolt High School.

## Debate team makes the point

Through long hours of work, research and practice, the Debate Team fought for its place in the league. Under the guidance of their coach, Mrs. Balenti, their efforts were formed into a capable, well-rounded team.

Many sources were used to achieve the end result. Endless hours were spent pouring over hundreds of cards in a card file, periodicals, and reference books, and in comparing personal experiences.

"Long hours of work and research, make a Debate Team a great team."

## The agriculture minded

Sam Franklin and His prize sheep.

A national organization for boys studying vocational agriculture, the Future Farmers of America, our men of tomorrow, work toward future vocations, stressing leadership, cooperation, and citizenship. Supported by their national organization, they study, they work at individual projects, and gain admiration, recognition, and awards. Many places that have scattered honors on our chapter are Evergreen Fair, Western Washington Fair and the National FFA Convention in Kansas City Truly an addition to the school, the FFA has earned its superior rating.

## The feminine set

... Introduction to Tolt!

As Tolt is made up of several parts so is the Girl's Club. The parts are the activities that are held during the school year. Initiation, where the Freshmen are properly introduced to Tolt by upper classmen, the new year's Tolo, their School Improvement Project, taking advantage of their chance to help out the school, and the opportunity to model clothes made by the girls in the Spring Style Show, the sum of these things is this year's Girl's Club.

## The Honor Society sets the pace

The Honor Society was a very busy group this year. Among their regular activities were their trips. One to The Old Seattle Caves and the IBM Building and the other was the traditional weekend at Sun Lakes. They were invited to a banquet at Monroe this year which filled some of their time. A few of the Senior members attended the Torchlight Dinner. Each member worked very hard to earn his position and holds it with pride.

Cleanliness of grounds, traffic safety, and other small but important tasks are credited to Tolt High's Service Club. It is an organization that works to improve the school's appearance, safety, and to promote good citizenship. The members of this club should feel privileged since they are selected especially by the Service Club. The boys are chosen from among the many volunteers from any class. Leaders of this organization include President, Ted Koters; Vice-President, Rex Colgate; Secretary-Treasurer, Tom Thompson. With the help of their advisor, Mr. Bennett, they succeed in achieving many goals and are a great credit to Tolt High School.

PART III  
INDIVIDUALS

## Seniors hit the top

Tumbling-tranquil, childish-adult, confusion-clarity, responsibility-nothing, reversion-forging ahead; all of these seemingly opposites are, and have been, worlds of the Senior.

Many times you will wish to be an insignificant Freshman again, without the cares of a Senior and yet you will know it is impossible. As you forge ahead and take the next bewildering step your memories will give you strength. Those memories wonderful and disillusioning: Junior Proms, Homecoming, the Senior Banquet and trip, numerous tests-athletic and academic, impossible and possible, projects, and all those only individual feats. The disappointments are nothing compared with the achievements.

## A short climb to the top

Under the capable guidance of their of ficers and helpful advisor, Mr. Plesha, the Junior Class proved to be successful in ac-

were the Concession at the games and their  
Junior Prom in the Spring. Remembering the  
fun enjoyed by our Juniors we know they are

## A step into the future

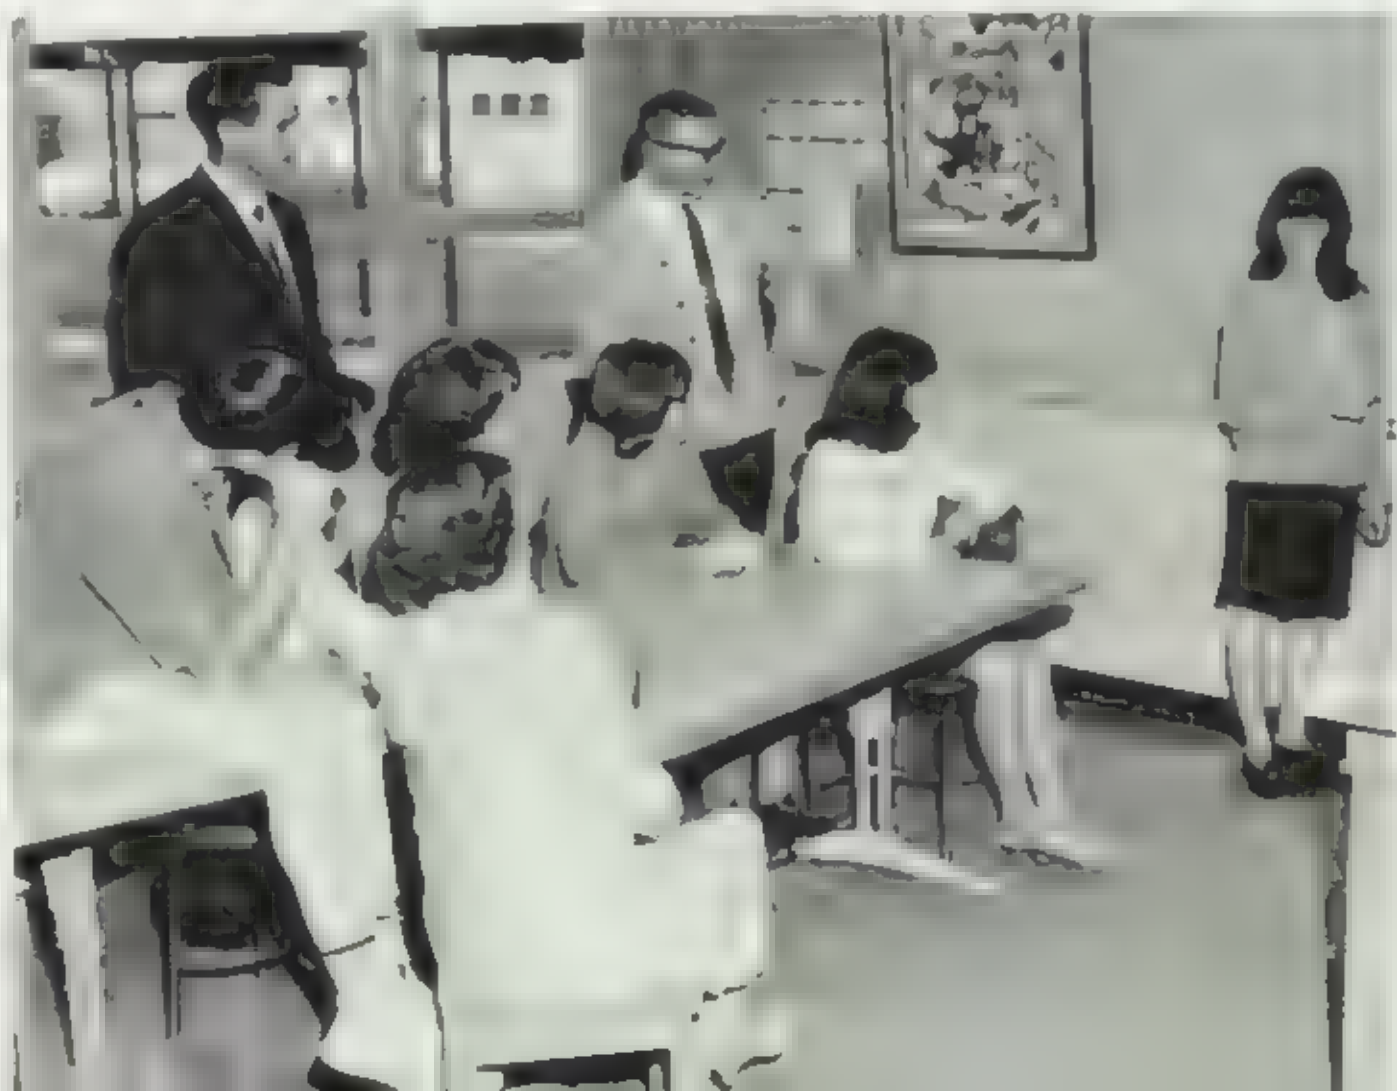

The Freshmen of this year went forth into a new and extended life of learning, as all the Freshmen of yesterday have.

The first days of school were a rat race for the Freshmen, but the

race was felt throughout the school.

The Freshmen as usual, wandered around discovering Tolt as they tried to find their classes. Their discoveries lead them to the discoveries of an upper-classman.

### Some People Think Our Business Is Trees

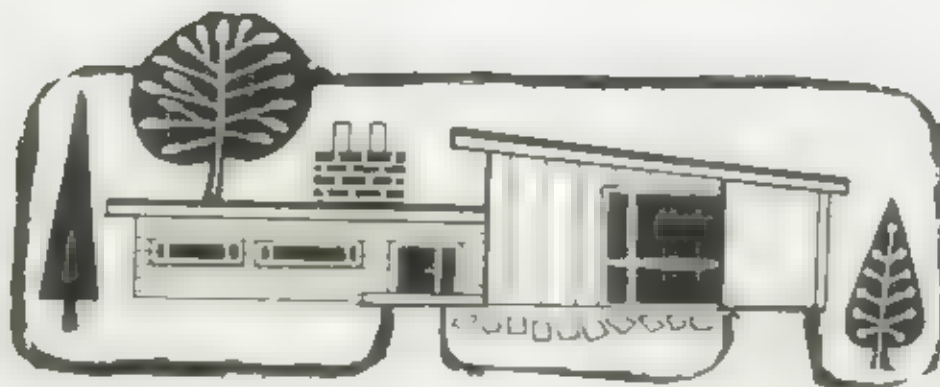

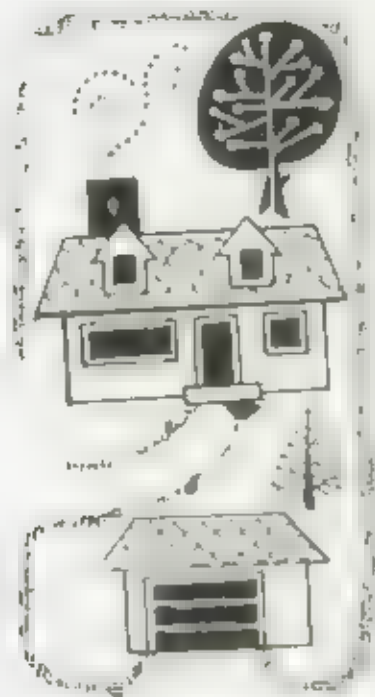

That's only half the story

A dynamic leader in the forest products industry, Weyerhaeuser has grown from a regional lumber producer into an international organization with plants in 27 states and 12 foreign countries. At the same time, Weyerhaeuser has refined its methods of scientific forest management to insure a perpetual harvest of the highest quality raw materials for its wide range of products. Today Weyerhaeuser continues to make lumber and plywood, but it also makes paper, plastics and chemicals which are as new as tomorrow. Whatever your plans or interests are you should consider Weyerhaeuser—the growing company in a growing industry
